1

Download the application for free: "Bondrap decorator". Available on the App Store and Google Play.

2

Print these 2 pages which will be used as a template and place them in the centre of the window, sofa or bed as shown in the images.

It is recommended that you use sticky tape especially in the case of curtains and blinds.

3

Open the application and press "START".

Select the category which you would like to use: Curtain, blind, bed or sofa.

Stand at a distance of 50 or 60 centimetres from where you have placed the two pages and press "SCAN".

When the application detects the image, the category which you have selected will appear on the screen and you can adjust its size. Move closer or further away to see how it fits the actual size.

4

Once the image is adjusted, press "CHOOSE FABRICS" and the fabric catalogue will appear.

You can change the fabric as many times as you like.

5

You can take as many photos as you like, save them to your device and /or send them via email.
